
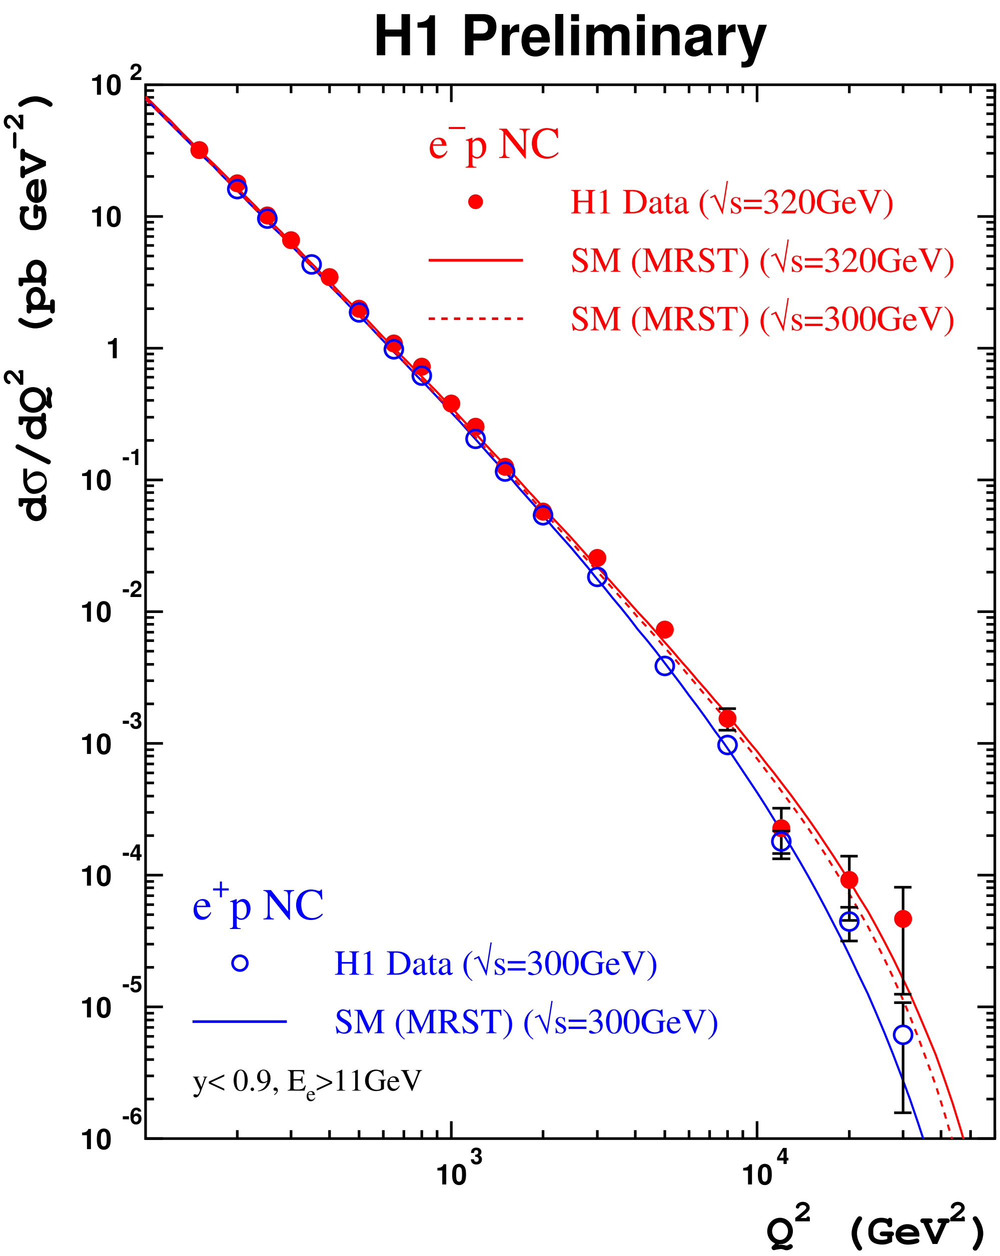

Figure 1: Preliminary inclusive neutral current cross sections as a function of Q^2 for H1 e^-p data from 1998-1999 (solid red points) and for H1 e^+p data from 1994-1997 (open blue points).

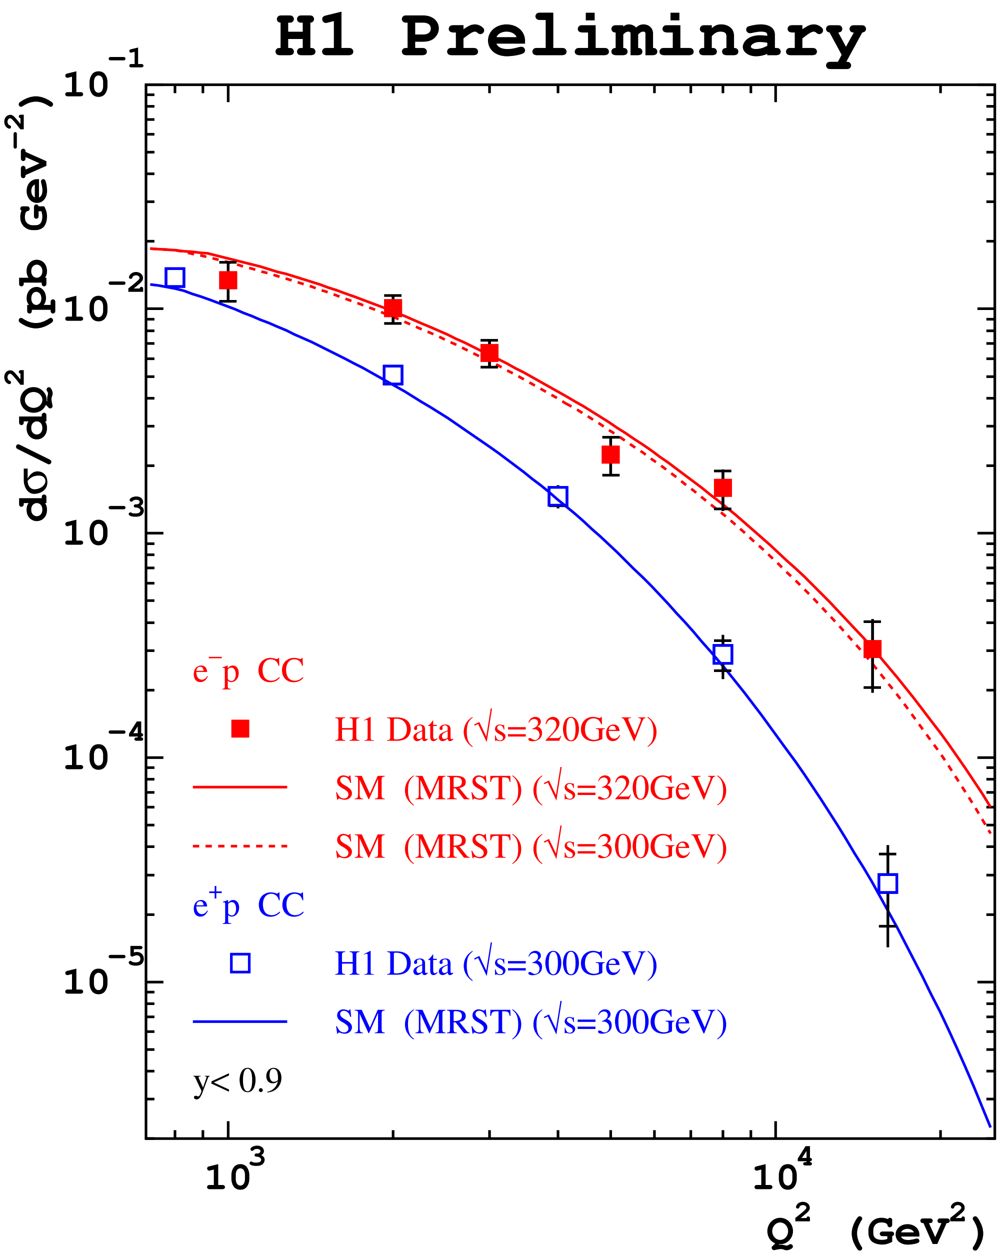

Figure 2: Preliminary inclusive charged current cross sections as a function of Q^2 for H1 e^-p data from 1998-1999 (solid red squares) and for H1 e^+p data from 1994-1997 (open blue squares).

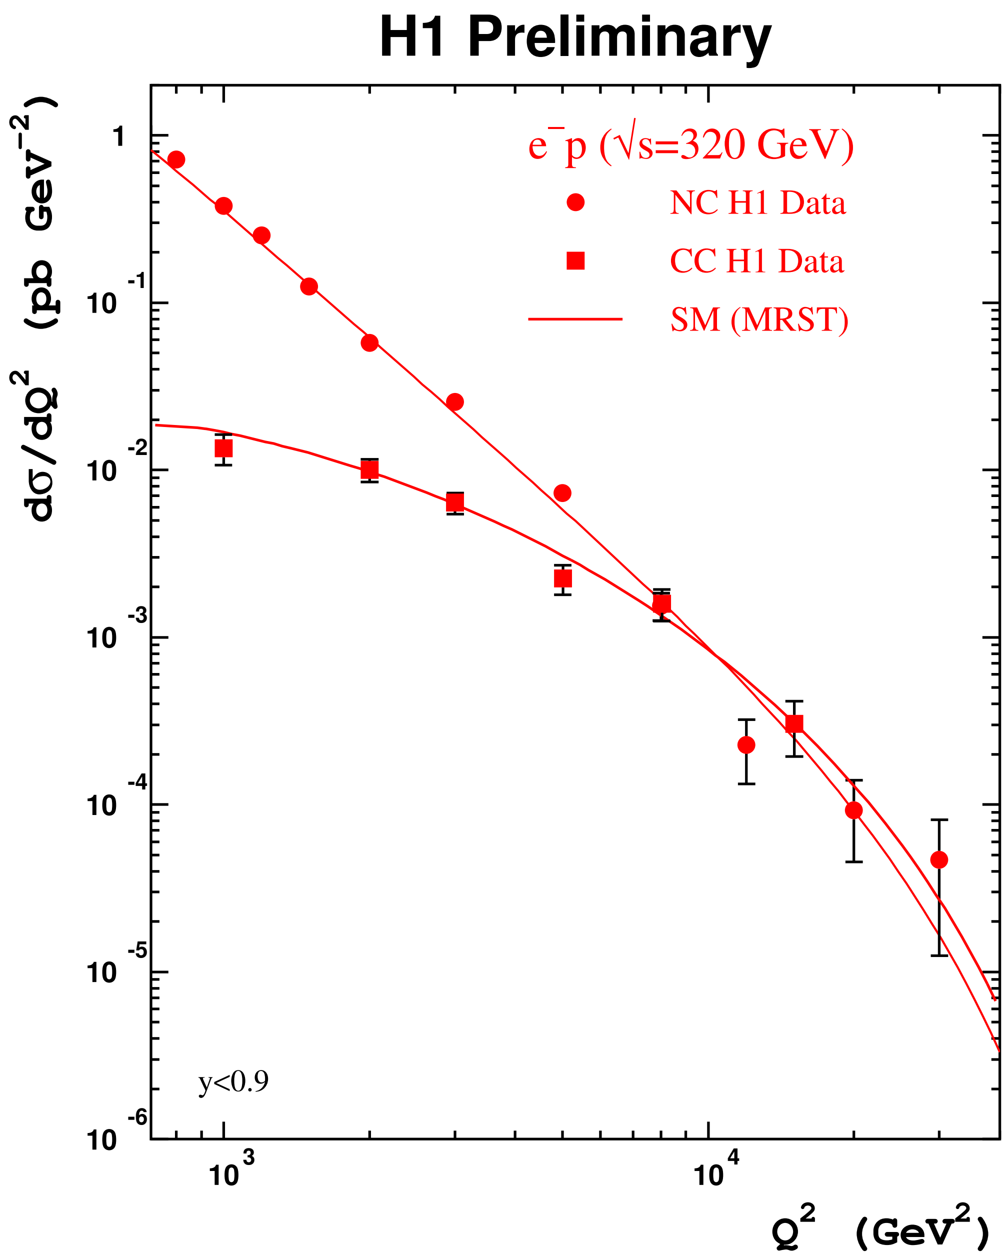

Figure 3: Preliminary inclusive neutral and charged current cross sections as a function of Q^2 for H1 e^-p data from 1998-1999.

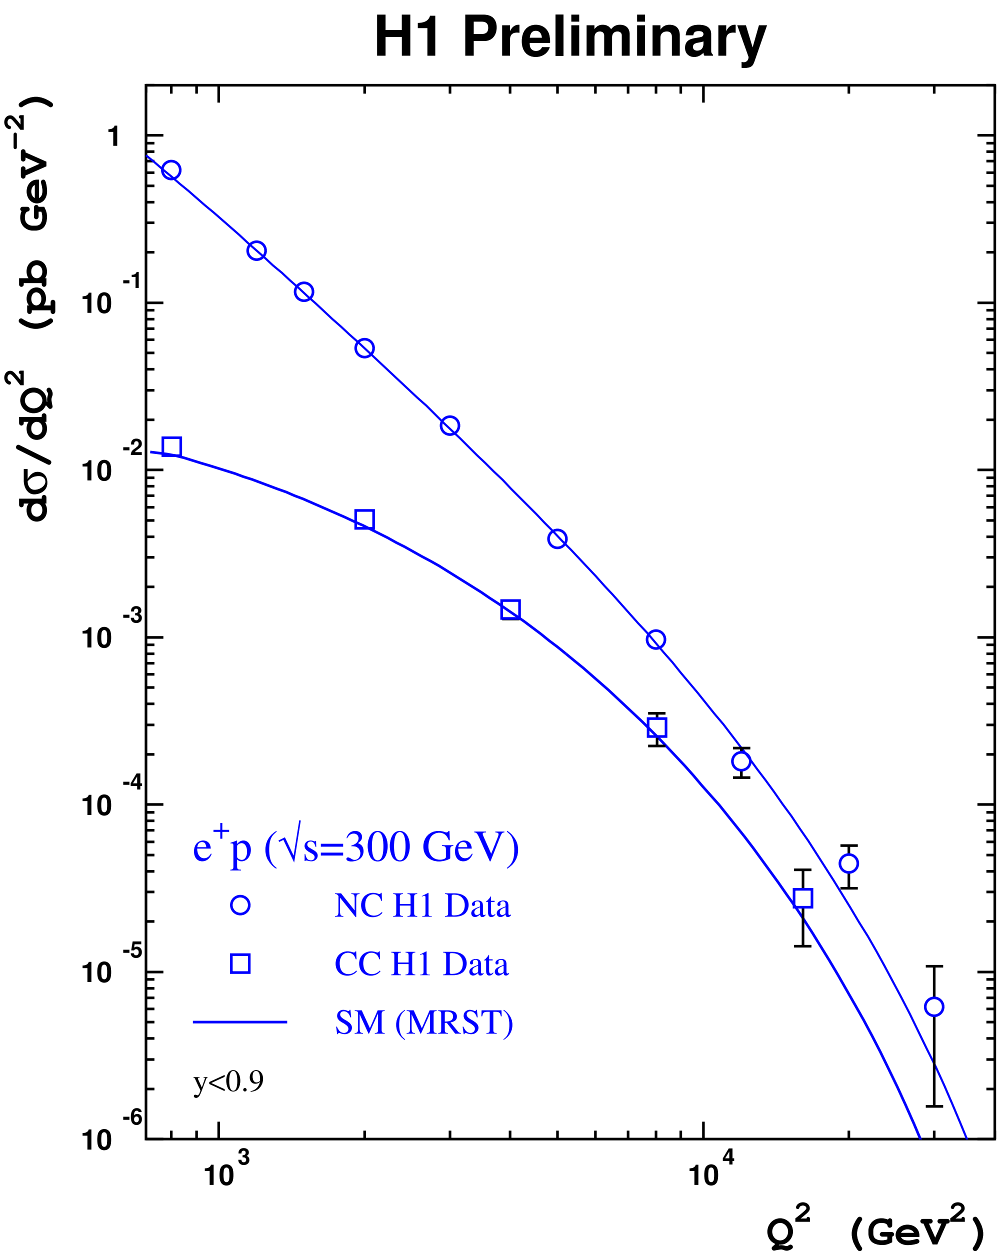

Figure 4: Preliminary inclusive neutral and charged current cross sections as a function of Q^2 for H1 e^+p data from 1994-1997.

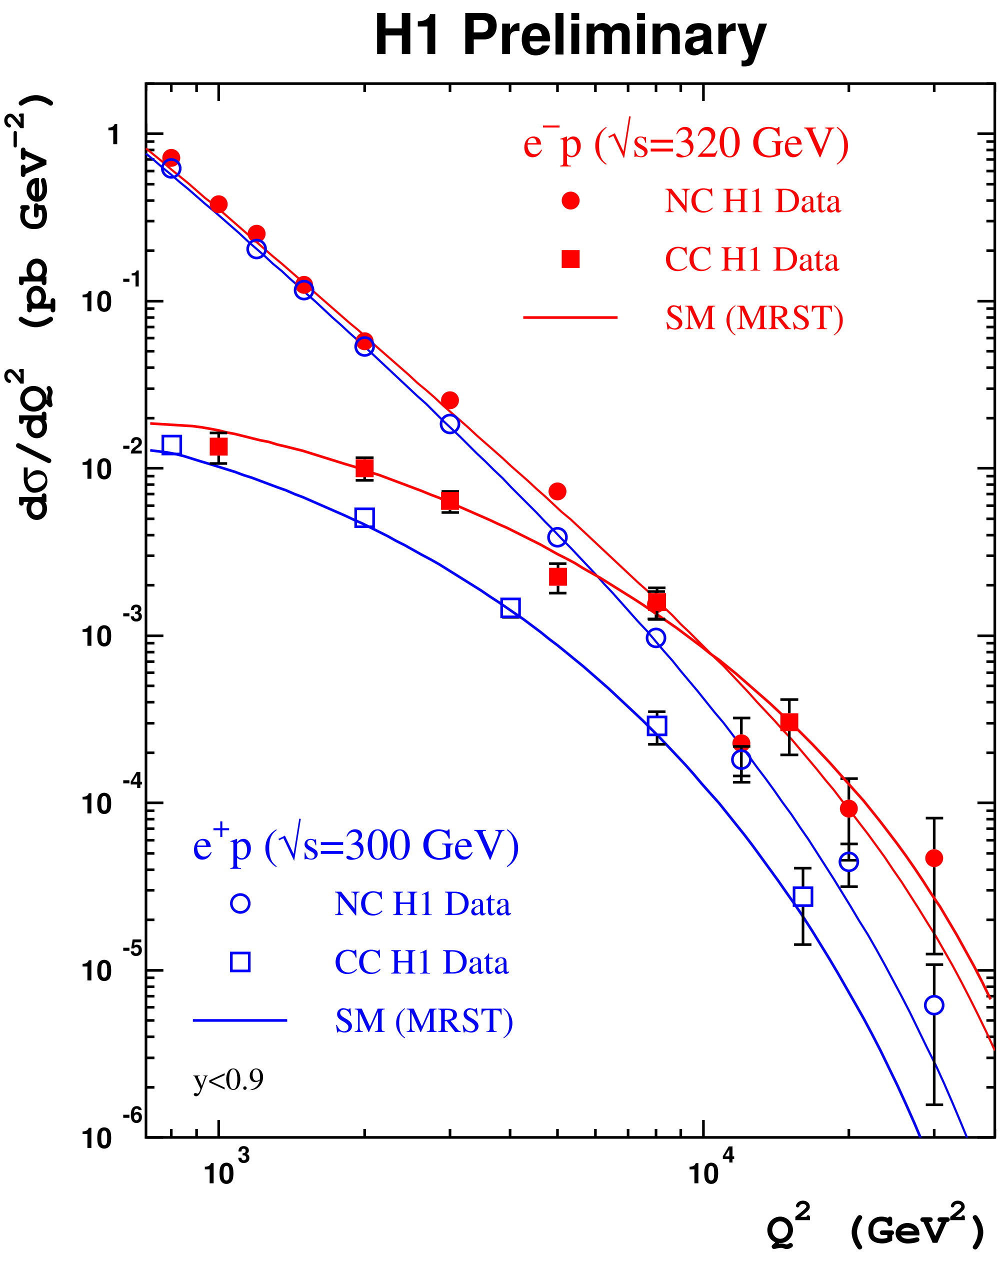

Figure 5: Preliminary inclusive neutral and charged current cross sections as a function of Q^2 for H1 e^-p data from 1998-1999 and for H1 e^+p data from 1994-1997.
